### VGA Monitor Users

If you are using your new LapisColor card with a monitor that has a VGA type cable or connector, the supplied video adapter will be required. Please note that the adapter shown in the manual of the LapisColor cards is an older version, without switches on the side. *If you are using the adapter with the LapisColor card, the switch settings are insignificant.*

In the future if you use the adapter with a different Macintosh or manufacturers video card, please use the following switch settings for your monitor type.

<u>Monitor Class</u>	<u>Resolution</u>	<u>Switch #</u>			
		<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>
Apple 21"	1152x870	on	on	on	on
